

**blackdogpurchasing provides a means for
your business to achieve better prices through
group buying power.**

blackdogpurchasing provides you with competitive contract negotiation with nationally and regionally recognised and accredited suppliers who bring with them the greatest price, quality and reliability benefits. Starting at the Ritz and with over 25 years of buying experience for the hospitality industry, we have compiled a portfolio of suppliers covering every product category. You might buy it every day, you might only buy it once a year. You might only buy it once in a lifetime, but blackdogpurchasing will have a supplier and a negotiated price for you.

All blackdogpurchasing clients enjoy the same negotiated blackdogpurchasing prices. By combining the purchases of our clients into one “basket”, and selling this potential business to suppliers, we are able to aggressively negotiate prices normally only available to the largest groups. As we get bigger the prices get smaller. blackdogpurchasing nominated suppliers actively promote marketing activities, brand support and special price offers exclusively to our clients.

This is all delivered by use of a purchasing manual. Constantly updated, it is a valuable resource exclusive to our clients. How many of the nominated suppliers clients choose to use is up to them. But they can be sure that every supplier listed in the manual, has the potential to save them money at no cost to quality or service.
